Activity 207 of 238

Trace the dotted lines. Color the complex figures as you like.

Следи ја линијата со прст или глумче.

One file. A whole collection of activities.

An interactive drawing workspace with pencil colours, adjustable stroke width, an eraser and activity navigation. Switch between English, German and Macedonian, or print a clean worksheet.

Included: the HTML application and a three-language README text file. This PDF is a static preview; drawing takes place in the application.

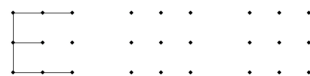

Sample activities

Six examples from the 238-activity collection.

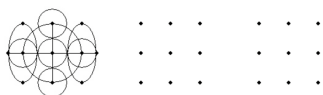

ACTIVITY 1

ACTIVITY 40

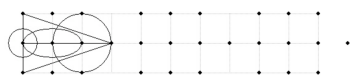

ACTIVITY 100

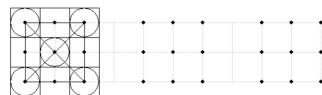

ACTIVITY 160

ACTIVITY 207

ACTIVITY 238

Draw on screen. Print on paper.

01 Choose an activity

Browse the activity menu or use Previous and Next. Select EN, DE or MK for the interface and worksheet titles.

02 Trace and colour

Choose a pencil colour and thickness. Follow the dotted figures using a mouse, touchpad, finger or compatible stylus. Use Eraser or Clear to try again.

03 Check and continue

Press Done for feedback on tracing. Use Full screen for a larger workspace where the browser supports it.

04 Print a clean worksheet

Print/PDF opens a worksheet with the selected activity. Save as PDF when offered by your device. Drawn marks are excluded from the printed worksheet.

Opening the application

Laptops and Android: open the downloaded HTML file in a modern browser. The activity images are included for offline use.

iPhone and iPad: local HTML files need a browser or HTML viewer with JavaScript support. A file preview may not run the interactive features. Use a compatible viewer or a hosted version if available.
